Amit Ön is megtehet Vass Ottóért

Vass Ottó egy volt közülünk. A rendőrség megölte, a sajtó halála után meggyalázta. Bízhatunk-e abban, hogy az ügyben nyomozó „Független Vizsgálóbizottság" valóban független és az igazság felderítésére törekszik? Tehetünk-e valamit, hogy közelebb kerüljünk az igazság felderítéséhez?
Tehetünk – nyomást gyakorolhatunk a kerületeinkben általunk választott politikusokra, a tartományi politikai és közéleti elitre stb. Íme az ajánlás, hogy kinek küldhetjük el az alábbi megszövegezett levelek másolatát:

Mr. Mel Lastman, Mayor
City of Toronto
100 Queen Street West
Second Floor
Toronto, Ontario
M5H 2N2

Dear Mr. Lastman:

I am writing to you to voice my concern and indignation over the handling of the arrest and subsequent death of Mr. Otto Vass at the hands of the Toronto Police.

The ineptitude with which some of Toronto's best handled this tragic case calls for a very thorough and honorable investigation of the police.

Not only that justice will have to be served, but also will have to appear to have been served in order that we will stop living in fear of our police.

Failure to bring to justice those culpable for this act will not only taint the image of Toronto's best for a long time in the eyes of us ordinary citizens of Toronto, but also fills some of us with irrepressible fear that the acts of totalitarianism from which many of us escaped, followed us to Toronto.

We realize that the police conduct exhibited by the Toronto Police in the Vass case could have happened in many societies. We also know that what separates a law abiding society from a dictatorship is that the former is capable of correcting its own misdeeds through the justice system.

We would like to continue to believe, Sir that in Toronto no one is above the laws including the law enforcers.

The answer to whether we will have to live in fear of the police from now on or not depends to a large measure on you, too.

Yours truly,

Date

The Honourable Mr. James Flaherty,
The Attorney General for Ontario
720 Bay Street
11th Floor
Toronto Ontario
M5G 2K1

Dear Mr. Flaherty:

We, the undersigned Ontarians, voice our grave concern over the handling of the arrest and subsequent death of Mr. Otto Vass at the hands of the Toronto Police.

The ineptitude with which some officers handled this tragic case calls for a very thorough and honorable investigation, because we are gravely concerned that from now on we have to live in fear of those whom we pay to serve and protect us.

If the T.P.D. is not healthy enough to publicly and unequivocally disown responsibility for the misdeeds of a few apparently unfit to belong in Toronto's best then indeed the public's relation with the all police officers will be based on suspicion and fear which no amount of money spent on P.R. will allay.

The police apparently saw it differently. We are gravely concerned and indignant that the media campaign of obfuscation which attempted to portray the victim, Mr. Vass, as a lowly and sickly creature whose death might even have been a boon to mankind, may have been orchestrated by publicly funded spin-doctors to deflect attention from the police's own culpability.

We request that this aspect be investigated and reported publicly. If the investigation reveals that the public's money was used for this purpose, then we request that the practice be stopped immediately.

Questions and fear lingers in the public's mind whether the apparently unwarranted police brutality was a retaliation for an earlier complaint against the police by Mr. Vass for failing to protect him against an assailant.
The community is scared. Witnesses are too afraid to come forward to testify against the police. Too many of us in Ontario fled from totalitarian police states and remember all too well what had happened to people whom the police decided to pique on.

We are concerned that the role of the SIU is not well understood by the public, consequently, it is not trusted. We recommend that the profile of the SIU be raised in the public consciousness using all media, to increase its rapport with the public.

Educating us on the SIU should explain its role, its frame of reference, what it may and may not consider relevant to a case, to whom it reports, how independent it is from pressure from the police and political brass and the invisible links of loyalty to their roots, in how many cases they found the police culpable, how many case they did not, but subsequent court action did and other relevant information.

We plead with you to ensure not only that justice be served but also that it will appear to have been served in this case.

Yours truly,
